Killoughteen National Internet Acceptable Usage

Introduction

This AUP policy was drawn up by the Principal in collaboration with the school staff during autumn 2014. It was reviewed again by the B.O.M. on 28/11/2017.

Internet Acceptable Usage Policy

ICT is an integral part of modern day living. It can be used effectively to benefit teaching and learning in the primary school. Educationalists believe in the benefits of curriculum-based internet use. The purpose of this Acceptable Usage Policy is to ensure that pupils will benefit from learning opportunities offered by the school's internet resources, and will be protected from harmful and illegal use of the Internet.
Killoughteen National School will employ a number of strategies to maximise learning opportunities and reduce risks associated with the Internet. These strategies are as follows:

- Acceptable Usage Policy
- Education
- Filtering/Monitoring

Pupil Access to the Internet

The school is pleased to offer the internet as an available resource to both pupils and teachers for reference purposes, researching project materials, playing interactive educational games and for lesson reinforcement. Access to online resources will enable pupils to explore thousands of libraries, databases, and bulletin boards throughout the world.

Electronic information research skills are now fundamental to preparation for living and working in this information age. The school will integrate such information as appropriate within the curriculum, and staff will provide guidance and instruction to pupils in the appropriate use of such resources, as outlined in this policy. Pupils' use of telecommunications and electronic information will be taught and provided for all classes and will only be permitted upon submission of permission and agreement forms by parents of pupils and pupils themselves.

Education and Internet Awareness

Killoughteen National School will undertake an education programme to educate children on the safe, responsible use of the Internet. Cyber-bullying has become a significant threat for children. Through education and awareness, we aim to limit our children's susceptibility to it as they progress to secondary school. 21st century life presents dangers including violence, racism and exploitation from which children and young people need to be protected. At the same time, they need to learn to recognise and avoid these risks – to become internet wise.

Resources that may be used to implement this programme include:

- NCTE Internet Safety Awareness Video
- Use of the 'Kids' section on the www.webwise.ie website
- Internet safety session for 3rd to 6th with Whizzkids/ other recommended guest speakers.

Filtering

The school will use the Internet provided and filtered by the NCTE (National Centre for Technology). 'Filtering' is a term used to describe a way of limiting the content of web pages, emails, chat rooms and other electronic data to which users may be exposed. Killoughteen National School also uses additional filtering software on all our machines. However no filter is 100% accurate. The most effective filtering tool is adult vigilance. At Killoughteen National School, we believe that the advantages to pupils having access to information resources and increased opportunities for collaboration far exceed the risk of disadvantages.

The access to websites from all school computers/ iPads is monitored and regularly reviewed by the NCTE. Websites are only allowed through following a verification of their suitability.

Classroom PC's

Every classroom has two computers. Every site that is accessed within the school network or by a school machine(iPad) is monitored. Each classroom computer has extra filtering levels built in to level 3. 'You Tube' is therefore not accessible on the classroom computers. Only the teachers have access to 'YouTube' on their laptops.

Use of laptops that travel between home and school are subject to all stipulations, procedures and sanctions outlined in this policy 24 hours a day, 365 days a year. Parents of children who have or may be sanctioned laptops are instructed to be vigilant in monitoring their use in the home, as per procedures for school. Parents of all children are advised to keep laptops in a common area (i.e. kitchen or living room) with the screen visible to others while a child may be on the internet. The use of laptops by children in their bedrooms is not recommended.

Sanctions

If a pupil deliberately misuses the internet or email, is found running searches on inappropriate topics or attempting to access inappropriate/unsuitable websites, this will result in disciplinary action, including the withdrawal of access privileges. Parents/guardians will receive notification of misuse by a pupil. Further misuse will result in longer withdrawal of access privileges, as seen fit by the school staff.
